**Panthera Wikipedia**

**May 8th, 2018 - Panthera is a genus  
within the Felidae family that was  
named and first described by the  
German naturalist Oken in 1816  
The British taxonomist Pocock  
revised the classification of this  
genus in 1916 as comprising the  
species lion tiger jaguar and  
leopard on the basis of cranial  
features"Panthera leo spelaea
